Here are the basic rules I used while indexing this book.

- All titles have been dropped. There are no Captain, Colonel, or Dr. Each full name is indexed as it appears less these titles.
- If no first name is given, or can not be derived from the surrounding text, only the last name has been indexed.
- Names of businesses may be included in index if it could reasonably be assumed that the business was named after a local owner.
- No other assumptions were made. A name is indexed as it was typed. i.e. Charles, Charley, and Chas Barry are all listed exactly as they were printed in the book, however they may very well be the same person.
- Pages 81 and 82 include a list of "Early Kahlotus Names" that Mrs. Phillippay provided. The individuals on this list were in the Kahlotus area before 1915.

Please remember - I wade, I don't walk on water. Mistakes are possible.
